

MARTINE BEN AMAR  
PROFESSEUR DE CLASSE EXCEPTIONNELLE DE L'UNIVERSITE  
PIERRE et MARIE CURIE

## INFORMATIONS

**Nom:** Martine Ben Amar,

**Date et lieu de naissance :** 20 Juillet 1954, Calais, France

**Adresse Professionnelle :** Laboratoire de Physique Statistique, Ecole Normale Supérieure, 24 rue Lhomond, 75231 Paris Cedex 05, France

**Position :** Professeur de classe exceptionnelle de l'Université Pierre et Marie Curie.

**73-77:** Ancienne élève de l'Ecole normale supérieure , ENSJF

**Juin 77:** Agrégée de l'Université

**Mai 1979:** Thèse de Troisième Cycle (P6)

"Etude théorique de la photoionisation du nickel aux énergies inférieures à 80 eV."

**Décembre 1984:** Thèse de Doctorat d'Etat, P11

"Modèle théorique en photoémission des systèmes atomiques dans le domaine de l'ultraviolet lointain. Application à l'Argent, à l'Iode et au Xénon."

**77-87:** Agrégée-préparatrice ENSJF

**87-93:** Maître de Conférences

**93-97:** Membre junior de l'Institut Universitaire de France

**À partir de: 93...** Professeur UPMC

**99-00:** Professeur invité au MIT, Department of Mechanical Engineering (chaire McCarthy)

## PUBLICATIONS (only in reviews with referee)

1) Martine Ben Amar,

Thèse de troisième cycle ,Université PARIS 6, ( Mai 1979) .

Etude théorique de la photoionisation du nickel aux énergies inférieures à 80 eV.

2) Martine Ben Amar,

Thèse de doctorat d'état, Université Paris 11 (Décembre 1984).

Modèle théorique en photoémission des systèmes atomiques dans le domaine de l'ultraviolet lointain. Application à l'Argent, à l'Iode et au Xénon.
